FIRSTNET IN CALIFORNIA BAKERSFIELD TOWN HALL

Listen to local fire perspectives from local first responders

Kern County Board of Supervisors Chambers | 1115 Truxtun Ave., 1st Fl. | Bakersfield, CA

REGISTER NOW!

Don't miss California's town hall dedicated to public safety wireless broadband communications!

FirstNet was created by Title VI of the Middle Class Tax Relief and Job Creation Act of 2012 (PL112-96). The law includes provisions to fund and govern a nationwide public safety wireless broadband network, reallocate the 700 MHz D Block spectrum to public safety, and authorize the FCC to conduct incentive auctions to raise **\$7 billion** for building and managing the new network.

- Hear FirstNet experts answer the tough questions, "What is FirstNet? What will it cost? When will I see it? How will it affect me?" and more
- Learn about California's developments, current initiatives, and how to participate
- Understand how FirstNet will impact local public safety radio communications
- Learn about fire applications already in use
- Future Town Halls will offer emergency medical services/telemedicine and law enforcement perspectives

FirstNet Vision

To provide emergency responders with the first nationwide, high-speed, wireless broadband network dedicated to public safety

SPACE IS LIMITED | REGISTER NOW
