

The Department of Homeland Security, Office of Emergency Communications
The California Governor's Office of Emergency Services Public Safety Communications

PUBLIC SAFETY BROADBAND CONSULTATION PREP WORKSHOP

WED. 10.01.14 | 9:00AM - 4:00PM

South Coast Air Quality Management Board
21865 Copley Drive, Diamond Bar, CA 91765-4182

Participate in the Success of California's Dedicated Public Safety Broadband Network!

Don't miss your chance to provide valuable input on California's incoming consultation process! FirstNet was created by Title VI of the Middle Class Tax Relief and Job Creation Act of 2012. The law includes provisions to fund and govern a nationwide public safety wireless broadband network.

- Learn about OEC's coverage baseline, national trends, users and future network service
- Provide critical input on California's unique needs and challenges in rural, urban and tribal lands
- Meet California's governance board –the California First Responder Network Board of Directors

This workshop is for first responders, IT directors, public safety officials and administrators, telecommunications technical experts, military, (army, navy, & coast guard) border patrol, port authority, private industry, tribal and federal entities.

FirstNet Vision

To provide emergency responders with the first nationwide, high-speed, wireless broadband network dedicated to public safety
