

BAYRICS GENERAL MANAGER'S REPORT

BARRY FRASER
GENERAL MANAGER
BAYRICS AUTHORITY
APRIL 13, 2017

WHAT I WILL COVER

- Status of FirstNet-AT&T
- Governor's Opt-In Decision
- California Planning Efforts
- BayRICS P25 Operators
Advisory Committee

GOVERNOR'S DECISION: OPT-IN OR OPT-OUT

State Plan

- FirstNet presents State Plan to Governor for building a “Radio Access Network” (RAN) in State

Opt-Out

- States then have 90 days to make a decision -- “opt in” or “opt out” and seek approval to build an alternative

State RFP

- If State opts out, it will have 180 days to “develop and complete” a RFP for the construction, maintenance, and operation of a State radio access network (Alternate Plan)

Approvals

- FCC must approve the Alternate Plan
- If FCC approves, state must apply to NTIA and FirstNet for spectrum lease and may apply to NTIA for grant funding for network construction

No requirement for local government participation!
